

ENTO ENT Medical Center

About Us

Established in 2001 in İzmir, ENTO ENT Medical Center has been offering quality and high tech health services to its patients thanks to its expert and experienced physicians as well as its health personnel that value human health. Having a smart automation system on an area of 2000 m², ENTO ENT Medical Center is defined as an A Type Medical Center by the Ministry of Health thanks to its sleeping laboratories, surgery rooms, VIP observation rooms, audiometry laboratories and many polyclinics.

Our mission is to offer you the fastest, the most economical and quality health services that comply with the world standards while considering your expectations and needs.

Our vision is to provide our patients the recent advancements in the developing medicine, with the value we give to the human health, to become useful to the society and provide you the precedent, sustainable, accessible and quality health services in different branches.

Our Quality Policy

To prioritize our customers' expectations and satisfaction. To offer reliable health services in terms of diagnosis and treatment through our expert physicians and health personnel that subscribe to the advancements.

To create a social awareness by informing both our colleagues and patients through our educational and scientific works.

To ensure the health, satisfaction and comfort of our patients through our kind and solution oriented colleagues as well as our high tech devices and qualified units.
