

VM Medical Park Kocaeli Hospital

Adopting the approach of patient-oriented superior service in the field of healthcare, VM Medical Park Kocaeli Hospital creates the difference in patient-specific advanced diagnostic and treatment methods.

We have developed and spread by touching life of people and obviously caring for them since we had taken the first step in this end, and finally, we became the largest group of private hospitals in Turkey.

We aim to make you be very close to each step increasing your life quality and to each curative touch as close as to an healthy breath.

We took the road in accordance with this philosophy and we are hammering away. We are blending advanced technology with creativeness to ensure continuous innovation and we are generating ideas in the light of science in order to reaching out beyond international standards in the healthcare.

Now, we carry our approach of hospital business, which is adapted to changing life style, to Kocaeli. Combining 20-year experience of Medical Park, the widest medical network in Turkey, in healthcare sector with advanced diagnostic and treatment methods, experienced academic physician staff and superior service quality, VM Medical Park Kocaeli Hospital began to serve people of Kocaeli since August 2015.

Adopting the approach of patient-oriented superior service in the field of healthcare, VM Medical Park Kocaeli Hospital is getting ready to create the difference in patient-specific advanced diagnostic and treatment methods.

Being the largest privately owned hospital of Kocaeli as evidenced by 10 operating rooms, 101 outpatient clinics and 214 beds in closed area of 48 thousand square meters, VM Medical Park aims to be reference hospital of the region within possible shortest time based on the approach of superior medical service.

Located in the largest mixed project of East Marmara Region and Kocaeli, namely Symbol Shopping, Congress and Life Center, VM Medical Park Kocaeli Hospital is also advantageous in transportation due to its close proximity with the city center.

VM Medical Park will play the pioneering role in a new cull in the field of healthcare thanks to the world-class service and cutting-edge diagnostic and treatment methods.
