EXPERIENCE:

I was appointed to I.U. Cardiology Institute, Department of Cardiovascular Surgery as an Assist. Assoc. Prof. in 1992 after my Obligatory Service. Between August 1993 and April 1994, I received higher education at O.L.W. Hospital, Cardiovascular Surgery Department in Aalst, Belgium within the scope of a program under the leadership of Prof. Hugo Vanerman on the subjects of "Surgical Intervention for Large Vascular Aneurysms, Repair Techniques for Mitral Valve Diseases, Full Arterial Revascularization Techniques for Coronary Vascular Diseases". In 1997, I obtained the title and authorization of University Assoc. Prof. In 1998, I received an education within the team of Prof. Dr. Claude Planché for six months on the subjects of "Complex Congenital Cardiac Anomalies and Surgical Treatment" at Paris University Medical Faculty Marie-Lanne-Longue Hospital. I continued my position at the I.U. Cardiology Institute until March 2000. From this date to October 2002, I worked as a Cardiovascular Surgeon and Operating Rooms Manager at Istanbul Memorial Hospital. Since October 2002, I have been working in the position of Head of the Cardiovascular Surgery Department in Medical Park Hospital. I have nearly 100 articles on Adult and Congenital Cardiac Diseases in first and foreign language as well as congress and conference speeches. Up to the present, I have performed approximately 10,000 operations for the surgical treatment of both adult and infancy-childhood heart diseases.
