

Prof. Yalçın Karakoca

Chest Diseases, Therapeutic Bronchoscopist
Medical Park Hospital Complex Göztepe

Medical Field of Interest and Activities

COPD (Chronic Obstructive Pulmonary Disease)

Asthma,

Allergic Asthma

Occupational Asthma

Chronic Bronchitis,

Pneumonia (pneumonia)

pleurisy,

Pulmonary Hypertension

Pleural effusion,

pneumothorax,

hemothorax,

Pulmonary embolism,

Mesothelioma,

Interstitial lung disease,

Interstitial fibrosis, emphysema,

Cystic hydatid,

Primary Lung Cancer,

Metastatic lung cancer,

Bronchiectasis,

Pulmonary Hemorrhage,

Hemoptysis,

Diagnostic bronchoscopy,

Therapeutic (interventional) Bronchoscopy Unit (Kryon, Laser, stents,

balloon rezekt application)

Sleep Disorders,

Sleep Laboratory

Polysomnography,

CPAP-BiPAP treatment,

Pulmonary Function Tests,

Bronchial dilastasyo tests,

Allergic skin tests

Work Experience and Education

Medical Park Goztepe Hospital Chest Disease Department

Hacettepe University Medical Faculty Therapeutic Bronchoscopy special consultant.

The entire of both invasive and non-invasive diagnostic, therapeutic and research methods in the branch of Chest Diseases

Medicana Hospitals Group, Camlica Hospital, Clinic of Chest Diseases

Medicana Hospitals Group, Bahcelievler Hospital, Clinic of Chest Diseases

Maltepe University, Faculty of Medicine, Clinic of Chest Diseases

Istanbul University, Cerrahpasa Faculty of Medicine, Clinic of Chest Diseases

Izmit Büyükşehir Belediyesi Göçüs Hastalıklar Merkezi

Establishment of Interventional Brochoscopy Units

Researches and Publications

International : (24)

National Article : (24)

Announcements in international congresses: (32)

Announcements in national congresses: (12)

Awards

Young Investigators' Award: "Therapeutic Bronchoscopic Intervention with Resector Balloon"

Karakoca Y, Aydemir C, Karaagac G. 15th World Congress for Bronchology
